CLASSIC
PLASTIC
MODEL CLUB

General Rules:

- JUDGING:** Entry judging will be done using a 'Points System' (unless otherwise specified herein). This system is very similar to that used in 1:1 scale auto shows. All entries begin with zero points and are awarded points during judging against the following criteria: Engine, Chassis, Interior, Paint (over all parts of the model), Construction, and Degree of Difficulty. Judges may pick up and handle your entry during the judging process. If you do not wish your entry be handled please **clearly indicate** this fact on the entry form section that will accompany your entry on the display table. Remember, we can only judge what we can see. Judges are not allowed to judge a class in which they have an entry. The Small Scale (**class 9**), Diorama (**class 11**), Shelf Model (**class 23 and 24**), Miscellaneous (**class 25**), Curbside (**class 26**) and Military (**class 29**) classes will not be judged using the Points System method (see rule 7). We feel this Points System method of judging to be the fairest across the varied subject matter in competition and will ultimately bring 'the cream of the crop' to our show. Please do not feel intimidated, however, by this judging method as we believe it 'levels the playing field' for builders of all skill levels. That is to say, a modeler that excels in one aspect of modeling may not be as skilled in the other judged aspects, whereas, an average builder may 'out-point' that same builder across the spectrum of judged criteria.
- COLLABORATION:** All entries must be the work of only the person entering the model. This includes all construction and paint applications.
- BOX STOCK** (additional requirement for **Class 12 and 13 only**): Finishing materials such as paint, metal foil and/or aftermarket decals are allowed. No other modifications or added details are permitted except as follows: Putty may be used to fill seams and/or to correct manufacturing flaws such as sink marks. Removal of details such as door handles, chrome trim or incorrect/extraneous underbody details are also allowed. Kit instructions **MUST** accompany the entry.
- DETAILS:** Models should be correctly detailed for the class in which they are entered. Example: Street cars must have treaded tires and complete exhaust systems. Competition entries must conform to the type of racing represented. Incorrect detail will not disqualify any entry but may result in lost points.
- DISPLAYS:** Models may be mounted on a simple base or mirror. The presence of a base, figure(s) or equipment not attached to the model is permissible but will not be judged as part of the model (except in the Diorama class).
- DATA SHEETS:** Modelers are allowed (and encouraged) to include an informational sheet with their entry; however, the modelers name **MUST NOT APPEAR** on this sheet.
- SMALL SCALE, DIORAMAS, SHELF MODELS, MISCELLANEOUS, CURBSIDE AND MILITARY (Class 9, 11, 23, 24, 25, 26, and 29):** Will be judged using only the construction and degree-of-difficulty criteria associated with the Points System method explained in Rule 1 as well as the visual attributes and presentation aesthetics of the entry. Additionally, Dioramas will be judged on the quality of composition and strength of theme that is presented with scale equivalence of figures, buildings, etc. weighing heavily in judging decisions. We request your Diorama base size be limited to 36" x 36" maximum.
- CLASS ELIGIBILITY:** Build your model entry the way you want. Every model car, truck, motorcycle, etc. will be eligible for entry into a class. Classic Plastic officials will give strong consideration for your wishes regarding class choice however the judges will have ultimate responsibility for class determination. If the judges feel your entry is in the wrong class it may be moved to the proper class (for your benefit) or disqualified from judging consideration.
- RESPONSIBILITY:** Reasonable care will be taken to ensure safety of all entries however Classic Plastic assumes or implies no responsibility for loss or damage to models. Entries are accepted at the entrants' risk. **Additionally we request previous first place winners of our show refrain from entering their winning entry back into our show, in any class, so as to provide opportunity for others to win.**
- SWEEP RULE:** There is none! Enter a class as many times as you like, if your entries are the best *they will win!* Because we judge using a Points System we believe we have the fairest and most competitive show in the region...drawing many great entries.

Visit our club Web site at www.classicplastic.org for latest contest information and entry form.

VENDOR INFORMATION:

Vendor tables are available for a donation of \$30 per table. All tables will be available on a first-come, first-served basis. As the vendors and the model show will be in one large hall (with food available on-site), we feel that vendors will be busy all day. To reserve vendor tables please contact: John Davison, (603) 458-1716 - Call any time and I will promptly return your call.

FOR ADDITIONAL CONTEST INFORMATION PLEASE CONTACT:

Del Paone, (603) 430-9377 or John Davison, (603) 458-1716 - We will be happy to answer any questions you may have about the show.

DIRECTIONS: Lawrence, Massachusetts, Elks Hall:

Take Route 93 toward Andover, MA.

Take Exit 45 (River Road). Travel east toward Lawrence.

The Lawrence Elks is 1.3 miles down on the left and is located at **652 Andover Street, Lawrence, MA 01843.**

FOR HOTEL RESERVATIONS:

Traveling in for the show? We suggest you stay at the LA QUINTA INN located just off Route 93 at 131 River Road, Andover, MA, which is just two miles from the Lawrence Elks show site. For hotel reservation information call (978) 685-6200.
