

#2

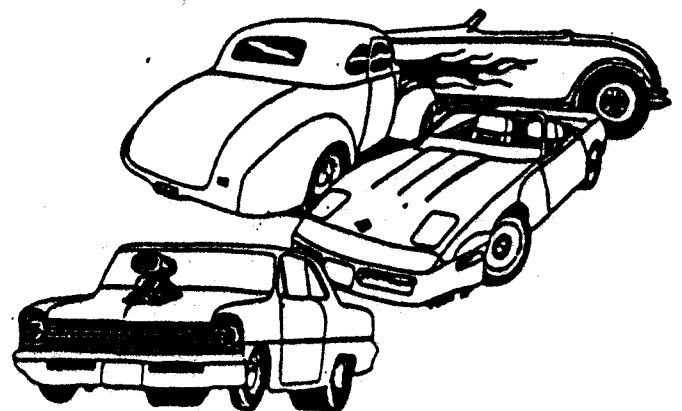

March's meeting was small in attendance but big on enthusiasm.

Hi guys, this letter will be short and hopefully to the point. First, let's congratulate Smilin' Bob Garrett. Bob bought one raffle ticket for \$2. he chose Monograms Quicksilver. Excellent choice Bob, I would have done the same. If anyone is interested Bob said he might sell it, really. The club took in \$54. on the raffle tickets.

Progress on the club project is coming along well and it almost looks like we're on schedule. I think that if everyone who has committed himself had attended we would have had a better picture and a good idea of how far we have to go. Lets go guys, keep it up. There was some very good work on the table. We will need a picture of all those participating in our project for Bob Dinan, so maybe everyone who is involved will attend our April 6th auction meeting. The auction was basically the topic of our meeting.

At this time I would like to ask that anyone who does buy any kits, books, paints or accessories, that you keep in mind that if it weren't for the incredible unselfish generosity of Bill Miller you couldn't be this fortunate. Please be sure to thank him before you leave. I will gladly introduce Bill to each of you before the auction begins. There is already talk about having an Open Invitational Auction sometime afterwards.

There are some contests coming up in the near future and they will be held at the Westford Regency, 219 Littleton Rd. in Westford, Mass. This is being sponsored by Hobby USA on March 23rd. The other is the Worcester County Modelers will be having their contest on April 28th. I'll have more info on it at the auction.

That's it for now guys, but one more thing, because of the liquor laws in this state anyone who plans to attend the auction must be 21 years old. However, those of you who are under age and would like to bid on something, get an idea of what you want, make a second choice just in case and give whatever money you plan to use to me or Neil VanZile or any other member that plans to attend and maybe you can pull it off just the same.

That's really it for now folks so see you there.

Thanks,
