

Insinuation

By Club President
Paul Anagnostopoulos

It is with overwhelming sadness that I report the passing of Barry Fadden, one of the club's longest standing members. He passed peacefully in late October, comfortably in bed in his modeling room with Jan and other family members by his side. I know every club member and many other modelers will miss his constant involvement, sense of humor, and willingness to share every detail of his projects. He was an avid modeler of street rods and cars from the '50s and '60s. I will particularly miss our 'play dates', where a few of us would gather at Barry's house, listen to late '50s and '60s rock 'n' roll, and work on our projects.

We will honor Barry at our next show in three ways. The Club Challenge class is street rods built box stock. Multiple awards will be given in his name, particularly the In Memoriam award sponsored by Tammy Baril. And he will present a member's favorite award in absentia, chosen by a club member familiar with Barry's building style.

Speaking of our next show, the flyer has been finalized and is available at our website on the Events page. Also on that page is a link to our model entry form. New for 2020 is the 'Day 2' class, defined as: a factory stock vehicle with some simple, primarily bolt-on changes that can be made the weekend after the car comes home. The idea is to create a class for a factory stock vehicle that has had a little work done by the owner. Previously, such a car would have to be entered in the Street Rod or Street Machine class, but that makes no sense. We added a no-sweep rule to the Junior class so that three different kids will receive the awards. Finally, we will no longer judge the In-Progress class. We look forward to seeing you on October 4, 2020!

Congratulations to Mr. Mike Siesicki on being voted in as our new club secretary. There were rumors floating about that he wanted the job. When I mentioned at the November meeting that we would wait until January to vote on a new secretary, a loud call was raised to vote then and there. Mike was elected unanimously. He has big shoes to fill and I know he will do so with aplomb.

Barry's passing made it quite difficult for me to select my next project, having completed the '62 Pontiac Catalina for

our last show. I have, I think, finally settled on the Tamiya Aston Martin DBS. I've done some work on the body to improve the styling. At least, I think it's an improvement and I'm sticking to that opinion. I will start work on the engine and undercarriage soon.

As I write this, I'm looking forward to our holiday party at Lenzi's this coming Sunday. It looks like we will have about 50 guests, which is quite a good turnout. I have laid in a supply of guacamole for Peter Patalano and will bring it to the party.

Again this year, Tammy and Joe Baril collected money for Toys for Tots, did the shopping, and presented the goodies to the Chelmsford police at the Chelmsford Walmart. They had about \$1500 to spend, but ended up with even more toys due to Tammy's patented price comparison methodology. The police were quite tickled to receive the gifts. Great thanks to all our club members who put money in the box over the past year. And thanks also to Tim Rhine for schlepping the toys as well as to his employer Autopart International for the generous use of their company van.

I'm looking forward to 2020. I encourage all club members to attend as many meetings as they can, bringing their current projects for show 'n' tell. As ever, Art, Tim, Mike, and I will endeavor to keep the business to a minimum. One of my techniques for doing so is to speak so quickly that Mike will be unable to record what the hell is going on. And remember, folks, we adjourn to the Dunkin' on Chelmsford Street for coffee, donuts, and conversation afterward. Here's to a most excellent 2020!

Paul

Another source of hobby tools

by Dave Bergeron

Merry Christmas and a Happy New Year club members! I've just found a new source of hobby tools and thought some of you may not know of them and may be interested in using this supplier.

Widget Supply (www.widgetsupply.com) is located in Oregon and advertises that they supply 'hard to find' hobby tools. Their website appears easy to navigate; they offer specials and close out items and free shipping on orders over \$50. If you have a chance, take time to check them out.

Happy modeling to all!
Dave B

2019 Toys For Tots Wrap-up

by Tammy Baril

Hello generous club members! The total donated for toys this year was \$1500. Thank you for your donations.

My dad and I once again had the privilege of shopping for this year's toy donation. For our first shopping trip, we headed to Target in tax free New Hampshire. This was a very successful trip! We left the store with three carriages of toys, all for the little ones, Christmas joy. While shopping, we met an associate named Mark who was very helpful. When we went to checkout at the register, he happened to walk by and volunteered to bag for the cashier. I'm going to let you know a little secret...almost everything at Target has a cheaper price online and they will price match it...if you ask them to. Almost every item the cashier scanned I had her price adjust because I had been scanning the items on the Target app as I put them in the carriage. We saved approximately \$300 in price adjustments in addition to the discount I get for using my Target card. We spent just under \$900 in the store.

We then dropped the toys off at our house and headed to Wal-Mart. Wal-Mart wasn't as great of an experience as Target had been but we were on a mission and managed to purchase another \$380 in toys including one of the bikes.

The following weekend, Dad and I spent time with my brother and nieces. After family time, we were in the holiday spirit and decided to do more shopping. We decided to check out Kmart to see if we could get some good deals since they are going out of business locally. This is where we purchased the second bike and more toys. The bike rang in at \$55.99, which was a lot lower than the original sticker price. Don't you just love a bargain?!

We left Kmart in great spirits. Unfortunately that wouldn't last long as, while stopped at a red light, we were rear ended by a distracted driver. She never braked or slowed down. Dad's poor new car and my poor back! This ended up being my first trip in the back of an ambulance.

Despite the setbacks, we were on a mission to complete the shopping. A co-worker of Dad's had heard about what the club was doing, and gave my dad \$50 to add to our shopping funds. The following weekend, we happened to be exiting the mall through JC Penney's and spotted toys. We found a really cool Discovery Model Engine Kit and a few other toys. We had a little bit of cash left, so we decided to see what Ocean State Job Lots had to offer. We were able to complete the shopping there.

The receipts from all of our shopping trips total \$1561.43. In total we purchased 128 items including two bikes. We also had a few non-cash donations. I donated three toys, my brother Joe donated a NFL Patriots Softee Ball set, Dwayne B donated two Tom Daniel Die Cast Vehicle & Track sets and Eddie A donated a Monster Garage Motorized Grim

Ripper Car. Scott Ridley, Eddie and Dwayne donated over 200 Matchbox cars. Thank you for the donations!

On Saturday December 7th, the Chelmsford Police Department held their annual Fill a Cruiser event for Toys for Tots at Wal-Mart. Dad and I met up with Tim at the club storage facility that morning. Thankfully, Tim's work (Autopart International) let him use the company van to transport the toys. Paul A met us at Wal-Mart and we presented the police department with all of the toys. They were very happy with the donation and gladly took a photo with us.

Thank you for allowing me the privilege of shopping for this great cause. Since my mom's passing in 2016, it can be difficult to find the joy of the season. Knowing that all these wonderful gifts will bring joy to children who otherwise might not have a Christmas, helps bring me joy. I look forward to next year's shopping adventures...although I may need hazard pay!

Tammy

"bringing the joy of Christmas to less fortunate children nationwide"

Our 2019 Christmas party by Associate Treasurer Tim Rhine

Hello again fellow members and friends.
We had our annual club Christmas party on Sunday December 15th at Lenzi's in Dracut MA. Over 50 members and friends joined us for a great meal and fantastic conversation.

Our fearless leader Paul Anagnostopoulos began the event with a toast to fallen friends and members. May they never be forgotten and will always be deeply missed. Paul then called a few of our long distance members to say hello and wish them a very Merry Christmas.

The meal was delicious, as always, and the service outstanding.
After dinner we held our traditional Classic Plastic Club Christmas gift swap. Participation is voluntary. Each participant brings in a new sealed model kit wrapped in Christmas paper and places it on our swap table. Once all kits are in place we let each participant select a kit (other than the one they brought) as their 'gift' from the swap event. It is a very fun club tradition as you never know what you're going to get!

Many thanks to Ruane Crummett for building and donating a new display stand for our old carved club sign. He debuted it the party and it looks absolutely awesome.

It was a great day. If you were not there you were missed. Following are a few pictures from the event. Enjoy!

Merry Christmas and Happy New Year to all and, as always, be safe.

Rolling wheels or not?

by Club Secretary Mike Siesicki

The question has come up from time to time on some of the model car forums that I belong to and I want to understand how others feel about this. Does your model have rolling wheels or not?

I posted this question on the Club Facebook page and the results are interesting. Some say they do and some say they don't, some say no altogether and some say they do roll a little.

The majority of my models have rolling wheels. I have lost a few off the shelf because of those wheels, although most were 'assisted' when it happened...unintentionally. I've rebuilt some of those models while some have been relegated to a box that I keep my 'no longer wanted' models. The ones I no longer care about. As time ages them, I start to pluck little bits and pieces off of them for other projects.

One model that I have, a 1973 Dodge Charger from the TV series Burn Notice, has many parts from a '71 Dodge Charger that had hit the floor. I was questioned about the '71 Charger as to why I was using parts from it. The fellow questioning me was a big time Mopar fan and he hated to see the '71 Charger be used as a donor. I needed the doghouse from that model and it fits the Charger to a 'T'. And, I made sure that the wheels didn't roll so it wouldn't roll off the shelf.

On some of my models, I have glued the wheels on since I can't figure a way to allow them to roll anyway. I try not to allow the spokes of those wheels align perfectly since it would look like I had intentionally posed them. I wanted those wheels to look like a car that was driven to a scene for picture taking so the wheel spokes would be at different angles and not aligned with each other. This way, the car looks natural.

I have been finding some credence that a model without rolling wheels will stay on a shelf longer without any fear of rolling off. I have my car models on an open shelf and they haven't rolled unless I move them. But, some of my models are in a clear display case and if I am not careful, they'll move to one side or the other. I'd better glue those wheels on so they don't move around on me.

Some of my models have needed suspension surgery to get them lower to look correct. Usually when this happens, the wheels are glued on so the model can no longer roll. I do try to keep suspension modifications to a minimum, but as you get into making those mods, things can change. As with most of my suspension mods, the wheels don't roll.

So, my question to you is...Do the wheels on your model roll? Write in to the newsletter editor and let us know.

Club T-Shirts

We've have limited stock remaining of brand new club T-shirts in Grape and Black color with our logo in white over the left breast. Available sizes range from Medium through Triple-X in 50/50 poly cotton. All shirts are \$10 each. Contact Tim Rhine at our meeting or email Art Paquin with your request.

2019: the year in review

by Associate Treasurer Tim Rhine

Hello fellow members. It's hard to believe that another year has gone by. 2019 was a great year and a sad year all at the same time.

It started with a fantastic holiday dinner and then 12 outstanding meetings. Club Members (Road Warriors) traveled to four shows and the Classic Plastic folks took home a lot of hardware. That again showed we have the best builders in the country within our club. Our club even won an award for outstanding club effort at the BAYCON show.

We had a ton of laughs along the way. To me, the best part was that I didn't need to break out my French maid outfit to clean up in the Lowell VFW hall after club meetings. There are some things you just can't 'unsee'.

Club members again showed their generosity by donating over \$1500.00 for the Toys-For-Tots program. Thank you all for the hard work for a great cause.

The sad part was that we had to say goodbye to another club member when Barry Fadden passed away. We all lost a great man, one of the most talented modelers in the world and most of all a man we all called friend.

We had two members move away (Scott Ridley and Art Paquin) and we all wished them the best in their new homes. On a good note Scott is near some great friends (Barb and Ken) who are also fellow long distance club members. Art moved all the way to central Texas and still is helping with everything club related. We would be lost without him.

We've also gained a few new members along the way that are helping make our club even better.

Everything changes, nothing stays the same. I'm excited to see what 2020 has in store for all of us. And, lastly, I'm excited for all the new kits coming out in 2020. I wouldn't be a true modeler if I wasn't.

I wish you all an exciting, happy and healthy New Year. As always be safe, Tim

COMING EVENTS

February 1, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

March 7, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

March 22, 2020 – Sun. – RTS Expo 2nd annual Model Contest and Swap Meet at Holiday Inn in Taunton MA

March 29, 2020 – Sun. – ValleyCon show in Chicopee MA

April 4, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

April 5, 2020 – Sun. – Southern Maine Scale Modelers presents DownEastCon in Saco ME. Show opens at 9am. See add herein

April 25, 2020 – Sat – NNL East #34 held in Wayne NJ

May 2, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

May 9, 2020 – Sat – MAMAs show in Havre De Grace MD

June 6, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

July 11, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

August 1, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

September 5, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

October 3, 2020 – Sat. – Club meeting, Lowell VFW, 1 PM

October 4, 2020 – Sun. – Classic Plastic Model Club presents our 28th annual Model Exhibition at the Lawrence MA Elks

BAYCON 2019 show by Club Secretary Mike Siesicki

On November 10th, ten Classic Plastic Model Club members made their way down to the BAYCON Show in Smithfield, RI. Dave the caterer (the same Dave who does our show) was at this show (he seems to get around) with his food truck full of drinks and food for us to consume.

The show included armor, ships, figures, dioramas, and cars (I only took pictures of cars). Club members brought 41 models for display and judging. We took home 23 awards including one award for Outstanding Club Effort. Here are just a few of my favorite entries.

BAYCON 2019 additional photos provided by Associate Treasurer Tim Rhine

Meeting Minutes

November and December 2019

by Club Secretary Mike Siesicki

November 2019: We had 24 members and two guests attend the meeting.

Club Business discussed at this meeting:

- Christmas Party at Lenzi's. Tim Rhine working head count
- GraniteCon 2019 – There were 85 cars at the show. Guil Rosa, Paul Anagnostopoulos and Mike Siesicki helped judge three classes. Overall was a great show with several members bringing home awards
- Plaques or Trophies? We talked a bit about going back to plaques for our next show. Mac Johnston to get us prices from GraniteCon show. This was discussed before with some negative feedback from some people.
- Barry Fadden - We discussed his passing and what we were told to be his cause of death. Several members went to his burial at the Mass. VA Veterans Cemetery
- Doug Bell sent some items to be given away and some items to be sold.
- LIARS Show - Only two people were willing to go with about four others backing out. We won't go to this show.
- Our Show Flyer-In Progress/Display Only class not to be judged.
- Juniors Class -To be separated into 2 sub-classes with awards for all who enter. Ages to be on entry forms. Abilities between 7 years old and 15 year olds vary greatly. The sweep rule will be applied to this class.
- Club Challenge - 2020 Club Challenge will be Box Stock only. No kit instructions needed for this class.
- Two Guests - Don Paquin and Bill Aliferis
- New (well, really just came back) member - Charlie Larkin
- Toys For Tots - Total so far is \$1237. Closing in on \$1500 total. Art is trying to arrange for US Marines pickup of toys at December Club meeting.
- Club Secretary - Mike Siesicki asked to be nominated and was selected for the post.
- Club Show 2019 - Some past winners being shown again for judging. Was suggested that we take pictures of those winners so they can't be judged again.
- Redefining Classes - Some classes could use a refined definition for the Show Flyer.
- Bill Murphy - Bill is still hospitalized. He's had additional surgeries since his original hospitalization.
- Show & Tell – we had 19 models on display
- Nine members went to Dunkin's for Coffee and chatter

Raffle Winners-

- Don Paquin - Monogram 1971 Hemi 'Cuda'
- Mac Johnson - AMT Ranger STX pickup
- John Davison - AMT '66 Buick Riviera Lowrider
- Pete Patalano - AMT '41 Ford Woody
- Dick Freeman - AMT Corvette Grand Sport

Show-N-Tell:

- Paul A** - IMEX '58 Cadillac Eldorado Biarritz, will customize by cleaning up, eliminating chrome and restyling bumpers. Plan to use Hemi engine from '41 Willys kit and build as a convertible
- Eric Jacobs** - Barney Rubble Sports Car, original wood carved toy I've owned since 1970

Eric Jacobs - Powell & Mason San Francisco Cable Car, a friction toy I've owned since 1970

Dave Perkins - Airfix Ford Fiesta RS WRG (1/32nd scale), a rally car that took more time to decal than to build, Ford Metallic Blue with a carbon fiber decal chassis

Mac Johnston - German WW2 Waldschlepper completely scratch built and replicates the only one still in running condition today. Only six chassis' are known to be still in existence.

Marcos Fernandez - AMT '66 Ford Fairlane to be built as a Day 2 project

Marcos Fernandez - AMT Don Garlits Wynn's Jammer, project will be fully detailed and 'see thru' on one side.

Marcos Fernandez - Revell '32 Ford 3-window Coupe, restoration of a Talcott collection buy, repainted the interior and swapped the engine for a 392 Ford

Bill Aliferis - '32 Ford Hot Rod 5-window Coupe in red paint

Bill Aliferis - '64 Chevy Impala in yellow paint

Bill Aliferis - '70 1/2 Baldwin Camaro, Pegasus rims, red paint

Mike Siesicki - Monogram '87 Ford Thunderbird Boss 429 cleanup, rebuild and replace engine with a wired Boss 429

Mike Siesicki - Revell Foose '67 Dodge Coronet work in process, bucket seats made into a bench seat, 4 speed tranny replaced with a TorqueFlite auto tranny, painted with Dupli-Color Forest Green Pearl, Tamiya Gloss Black and three coats of Tamiya Clear

Mike Siesicki - AT '65 Buick Riviera work in process, built engine, to be painted Dupli-Color Emerald Green Metallic and Tamiya Tan, white letter tires and Buick chrome plated wheels

Mike Siesicki - Monogram '86 Chevrolet Monte Carlo SS clean up and rebuild, wired engine, polished plastic

Dick Freeman - AMT '57 Ford Victoria Hardtop customizing work in process, taped front roll pan in place as well as two AMT Parts Pack Edsel center grilles installed turned sideways on both sides of the Monogram Lil' Coffin grille

Dick Freeman - MYNT 3D printing pen and supplies for making tubular parts like Nerf bars, roll bars, space frames, exhaust pipes, etc

Frank Moore - Tamiya US Army Assault Infantry Set (1/35th scale), took the figure set and turned it into a diorama representing a small unit out on patrol

Frank Moore - AMT '40 Ford Delivery Van (1/24th scale) work in process, intend to convert the delivery van into a WW2 US Army Field Ambulance

Show-N-Tell Photos for November

November Show-N-Tell pictures continue on page 10

November Show-N-Tell pictures continued from page 9

December 2019: We had 27 members attend the meeting.

Club Business discussed at this meeting:

- Sweep rule for Juniors Class at our next show was discussed and the sweep rule was voted no.
- Lenzi's Christmas Party for all Club members and spouses December 15, 2019.
- Club Challenge - Street Rods Box Stock in honor of Barry Fadden.
- A reminder for trophy packages for the 2020 Club Exhibition - Member's picks are \$15, Class Sponsor packages are \$35.
- Club membership renewals - \$30, please pay by February so we don't have to go chasing you for payments.
- 2020 Show Flyer comments to Art Paquin soon!
- The Club donated toys to the Chelmsford Police Fill-A-Cruiser event for \$1550. The US Marines never responded to our emails for requests for toy pickup.
- We need 80 kits for our 2020 Exhibition Raffle in October.
- Newsletter Article Deadline was December 13, 2019.
- Show & Tell – we had 26 models on display
- Show & Tell winner was Dave Perkins with a large scale '32 Ford chassis

Raffle Winners-

- Paul A - AMT Dick Tracy 1936 Ford
- Pat Wilkins - Revell '27 T Touring
- Marcos N-F - Revell '31 Sedan Delivery
- Brian Purtell - AMT Knight Rider
- Don Paquin - Scale Auto Magazine courtesy of the late Barry Fadden

Show-N-Tell:

- Bill Aliferis** - Revell Muscle '67 Chevelle Pro-Street Rat painted Testors Deja Blue, wired engine
- Bill Aliferis** - Monogram '64 Pontiac GTO, added wires to the engine, is my attempt a creating a 'patina'
- Eric Jacobs** - original MPC Raiders Coach
- Joe Freitas** - Kinkakuji Temple wood puzzle by Ki-Gu-Mi Wooden Art
- Joe Freitas** - Revell 1/350th scale Battleship, this represents the first ship to be built after World War 1
- Dave Perkins** - Monogram 1/8th scale '32 Ford built box stock and painted Dupli-Color Ford Metallic Red
- Dave Perkins** - Monogram '59 Corvette built and painted similar to the '60 I had back in the '70's, red insert with white body, wired break lines, gas lines, Model Car Garage photo-etch Corvette kit
- Dave Perkins** - AMT Opel GT built box stock and painted House of Kolor Tangelo, wife had an orange one when she was younger
- Dave Perkins** - N-scale stock one part resin bodies of a Hot Rod in Tangerine and a Tow Truck in bright Yellow
- Mike Siesicki** - Revell Foose '67 Dodge Coronet, bucket seats made into a bench seat, TorqueFlite auto tranny, column mounted shift lever, lowered front suspension, painted Tamiya Gloss Black over Dupli-Color Forest Green Pearl
- Mike Siesicki** - AMT '65 Buick Riviera painted Dupli-Color Emerald Green Metallic with a Tamiya Tan interior, chrome plated road wheels from the AMT '67 Riviera kit and white lettered tires
- Mike Siesicki** - Maisto BMW Z8, disassembled and repainted from the original red to Tamiya Silver Leaf, polished and reassembled to resemble the car used in the 007 movie 'The World Is Not Enough'

Tom Hart - Vapid Stainer Ford Crown Vic modified with newer, larger headlights and taillights

Marcos Fernandez - Revell '32 Ford 3-window Coupe, restoring paint and clear coat, engine is almost complete, interior tub is done

Marcos Fernandez - AMT Don Garlits Wynn's Jammer chassis is all together, added a driver and front wheels

Frank Moore - US Army M5777 Light Weight 155MM towed Howitzer in 1/35th scale scratch built from parts box items, tube Styrene and sheet Styrene, scale figures used as well

Frank Moore - AMT '40 Ford Delivery Van (1/24th scale) converted to a US Army Ambulance, interior details added

Frank Moore - '40 Ford Sedan US Army Staff Car, a 'glue bomb' rescue, originally a street rod, converted into a WW2 staff car

Dick Freeman - an illustration by my friend Emmet Grandone titled 'The Spirit of Buick'

Mac Johnston - '39 Ford German Cargo Truck, complete engine wiring, fuel lines and engine wiring, thinned hood edges and opened hood louvers, cut glass to half raised positions, scratch built tarps, bows and cargo, corrected floor pan and pedals

Tim Rhine - '76 Chevy Pick Up work in progress, custom made light bar and tire carrier, aftermarket tires and wheel, finish is Root Beer Brown

Tim Rhine - '53 Ford Hard Top painted Star Mist Blue

Comments from the Editor

by Newsletter Editor Art Paquin

I would like to thank Tammy Baril, Joe Baril, Tim Rhine, Mike Siesicki, Paul Anagnostopoulos, Dave Bergeron and Guil Rosa for all their inputs and efforts which helped create this issue of our newsletter.

The next deadline for newsletter article submission is Friday, April 10th, 2020 with a scheduled distribution date of Saturday, May 2nd, 2020. Please take some time to write something for our newsletter, a kit review, your impression of a model show you've recently attended, anything...and it will be much appreciated.

Thanks, Art

Special Theme Class:

The Chevrolet Corvette!

From its debut in 1953 till 2019 "The American Sports Car" has been a front engine vehicle.

In 2020 it breaks new ground by changing the platform to a mid-engine arrangement.

This year the LIARS wish to pay tribute to the first 7 generations of Corvette.

Build yours from any year (1953 to 2019), any style, factory fresh, custom or competition however you like it.

For Show and Vendor Information Contact Paul Drago at (516) 681-8439 or Call (516) 592-2951
